MEETING
8:00 P.M.
SUBJECT:
ENGINEERING DEVELOPMENTS FOR 1936
By
AUSTIN M. WOLF
Consulting Engineer

GUESTS ALWAYS WELCOME
EXCEPTIONAL PROGRAM SCHEDULED FOR NOVEMBER AUTO SHOW MEETING

An exceptionally interesting and worthwhile session is assured those Chicago Section members and their guests who attend the Section's Automobile Show meeting scheduled for Monday, November 18th.

The program opens with an officially conducted inspection trip through the Show, personally conducted groups starting at ten-minute intervals, beginning at three o'clock Monday afternoon. Through the co-operation of the Chicago Automobile Trade Association, this date has been officially designated as "S. A. E. Day," and Chicago Section members, and visiting members of the S. A. E. from other territories, will be the guests of the Show management.

Arrangements have been perfected whereby members and their guests who wish to make the inspection trip will find a Section S. A. E. registration desk in the lobby of the Stock Yard Inn, at 4178 So. Halsted St., where tickets for the evening dinner may be purchased and passes to the show secured.

Because of the location of the Auto Show this year in the International Amphitheatre, the usual pre-meeting dinner of the Section will be staged in the main ball room of the Stock Yard Inn, located in the same building as the Amphitheatre, where a dinner including one of the famous "Packingtown" specialties—roast beef—will be served at $1.50 per plate. Tables will seat 8, and may be reserved if desired.

Through the co-operation of the Chicago Automobile Trade Association and the Show management, S. A. E. members who attend the dinner will receive season passes to the Automobile Show.

For the meeting following the dinner and beginning at eight o'clock, a speaker of national reputation in the automotive world is scheduled—Mr. Austin M. Wolf, New York consulting engineer, who will discuss in his inimitable style the subject of "Engineering Developments for 1936" as they appear in the new models. To those who have heard Mr. Wolf talk on "engineering developments" at Metropolitan Section meetings in the past, he will need no introduction; those who up to now have not been so fortunate, have a real treat in prospect.

For toastmaster the Section has been fortunate in securing Mr. R. F. Norris, whom those in attendance at the March, 1935, Section meeting will recall as the speaker on acoustics at that meeting. It is also anticipated that Mr. W. B. Stout, president of the S. A. E., and others prominent in the Society, will honor the Section with their presence at this meeting.

Chairman Harry O. Mathews and Vice Chairman John S. Erskine of the Section's reception committee will be in charge of reception arrangements, and request that dinner reservations be forwarded as promptly as possible.

A brief business session of the Section will follow the dinner, for the purpose of electing a delegate and alternates to serve on the National Nominating Committee, and a Chicago Section Representative on the National Sections Committee, of the Society.

ANNOUNCEMENT!
The December Meeting, Tuesday, Dec. 3rd,
will feature a
SAFETY SESSION—
(details to be announced later)
Make a note of the date, and don't fail to hold it open.
3 November, 1935

WHO'S WHO

In the

CHICAGO SECTION

LEONARD B. GILBERT
Chairman
Entertainment Committee
1935-36.

"Len" Gilbert, whose ability in the automotive field gained for him, in September of this year, the appointment as sales manager of its Chicago territory by the White Company, was born in Gurnee, Illinois.

Upon graduating from the University of Illinois in 1926 with a Bachelor of Science degree, he immediately took up the apprenticeship course at The White Motor Co. in Cleveland, Ohio, and has remained with that company throughout his professional and business career.

In the spring of 1927 Mr. Gilbert was transferred to his company's Chicago office, where, by 1929, he had been made assistant district manager. In 1930 he was transferred to Cleveland as assistant to the vice president in charge of his company's Central Region; and in 1931 was re-transferred to Chicago, in the national account sales division.

Mr. Gilbert is a member of the S. A. E., in the activities of which—particularly those of the Chicago Section—he has taken a deep interest ever since joining; and of the Windsor Country Club.

Golf is Mr. Gilbert's main relaxation from business.

He is married, and lives at 2144 Forestville Road, Evanston.

LEONARD B. GILBERT
Chairman
Entertainment Committee
1935-36.
WELCOME!

Forty-six new members have been added to the Section roll since the "glad hand" was last extended through the medium of these columns—some by admission to membership in the Society, others by transfer to the Section territory from other territories, as follows:

WALTER F. ROEMING,  
Harvey, Ill.

ARTHUR M. HAZELL,  
Cudahy Packing Co., Chicago
